## 2004 Coming Events...

### Prairie Day

September 11 10 a.m. – 4 p.m.

Shaw Nature Reserve, Gray Summit

Follow the herd to this family event at Shaw Nature Reserve's 175-acre tall grass prairie. Hike with a naturalist to learn about prairie life, play pioneer games, listen to a string band or storyteller and watch demonstrations of weaving, spinning, flintknapping and other crafts. View exhibits of mammals, reptiles, amphibians and insects and watch live birds of prey. Purchase wildflowers and seeds from native plant nurseries or visit the concessions to buy bison burgers, kettle corn and homemade baked goods. Cost is \$3 for adults; free for children ages 12 and under, as well as members of the Missouri Botanical Garden and Shaw Nature Reserve. Call (314) 301-1500 for more information.

### National Hunting & Fishing Day

September 25

## St. Louis Regional Calendar of Events

August 2004

Volume 04, Number 08

Our Caldwell Conservation Area open house is for educators teaching public, private, parochial or homeschool students. Meet your Outdoor Skills Specialist, Conrad Mallady, as well as myself, Jennifer Fakes, your Conservation Education Consultant for Franklin County. We will showcase our new Discovery Trunks (available for use in the classroom), hand out examples of our posters and publications and demonstrate the new Outdoor Skills modules. You will have the opportunity to sample selected lessons from these modules throughout the event. Be sure to bring your school calendar to have first "dibs" on reserving a day at Caldwell or to schedule school presentations. Please call Laura at (573) 468-3335, ext. 233, to R.S.V.P. for the open house.

Caldwell Conservation Area is specifically opened for education programs and school groups who reserve the area. Teacher workshops, fishing programs, hiking around the trails and observing the wildlife are examples of the current programs and uses at Caldwell. Programs such as map & compass,

(Ages 0–3) It’s never too early to start learning about nature. Grab your stroller and your blankie and join us on a short hike to experience the outdoors. (Reservations begin August 12.)

## Wanted: Volunteer Naturalists!

*Do you like working with people of all ages?  
Do you enjoy teaching people about Missouri’s natural resources?  
Do you have 10 hours a month you could volunteer?*

Would you like to learn more about the natural world while helping to promote a greater understanding of Missouri’s resources and their conservation? Consider becoming a Volunteer Naturalist for the Missouri Department of Conservation. Busch Conservation Area, Columbia Bottom Conservation Area and Rockwoods Reservation are looking for folks who are interested in becoming Volunteer Naturalists. Beginning this September, the three sites will be working together to present an introductory training course for Volunteer Naturalists. The nine-session course will be held during September, October and November. If you are 18 years or older and would like to learn more, you are invited to attend one of the following Open Houses:

Discover Our Lewis and Clark Haversack

Borrow our new Lewis and Clark Haversack and make your own discoveries about the Lewis and Clark Expedition. This latest addition to our collection of loaner backpacks is full of games, activities, worksheets, materials and information on the Corps of Discovery. Beginning this month it is available to scout leaders, youth group leaders, parents and other adults free of charge on a first-come, first-served basis. The haversack, along with the backpacks, is available, free of charge, on a first-come, first-served basis from our front desk during nature center hours. Your expedition with the haversack is limited to Powder Valley grounds for up to two hours.

Girl Scouts – the Haversack is designed to accomplish several activities from the Missouri Girl Scout Council’s Lewis and Clark Bicentennial Patch Program.

LEWIS & CLARK ACROSS MISSOURI:  
Mapping the Historic Landscape - An Exhibit of the Missouri State Archives  
On display the month of August at Powder Valley Conservation Nature Center

Discover It. Experience It. Lewis & Clark’s Missouri River.

It was an incredible journey that lasted nearly 2 ½ years and extended over 7000 miles of prairies, rivers and mountains. President Thomas Jefferson offered Meriwether Lewis and William Clark a once in a lifetime opportunity to make history—and they did.

Lewis and Clark and their Corps of Discovery—a crew of soldiers, trappers, French engagés and Clark’s slave York—left St. Louis in 1804. Shoshone interpreter Sacagawea joined the explorers’ trek at Fort Mandan in 1805. Their adventures and triumphant return in 1806 from a magnificent and virtually unmapped land of vast prairies and awesome mountains sparked the American imagination.

That historic expedition continues to capture the imagination of people everywhere. Embracing the spirit of discovery that marked the Lewis & Clark Expedition, the Missouri State Archives presents LEWIS & CLARK ACROSS MISSOURI: Mapping the Historic Landscape—an exhibit of maps portraying the Missouri River exactly as the Corps of Discovery experienced it.

By combining nineteenth century land survey records held at the Missouri State Archives with modern mapping technology, geographers from the Geographic Resource Center at the University of Missouri’s Department of Geography produced something unique and original: they re-created the Lewis and Clark Expedition in beautifully rendered historic maps and gave us a new way to look at the Lewis and Clark Expedition in the land that became Missouri—where the journey began.

The maps show the Expedition’s course on the Missouri River, providing the earliest mapped version of the river and visions of a natural world that differs radically from today’s landscape. Depicting the historic vegetative land cover in territorial Missouri, the maps beautifully illustrate the rich natural resources available in the nineteenth century. Contemporary map overlays reveal the changes brought by human activity over two centuries. In addition, the maps comprise the first accurate rendering of the Expedition’s campsites and foot explorations by crew members on the first leg of their long journey to the Pacific Ocean.

Missouri’s Lewis & Clark story is singular among the stories of the other trail states. The Missouri State Archives maintains land records paralleling the time of the Expedition’s passage. No other state can duplicate with such accuracy the Expedition’s travels along particular stretches of river. The maps will give Missouri its place in telling this national adventure story.
